EXPERIENCE

FULL-STACK DEVELOPER

Toolbox · Oct 2022 - Present
I'm building features and fixing bugs for huge streaming
platforms using React (JavaScript), Node, Mongo and some
testing libraries.

FULL-STACK DEVELOPER

Ideaware · Aug 2021 - Aug 2022
I built plugins and themes for WordPress. I was responsible
for new features for web apps built with React, Node (API),
PostgresSQL, Angular and GIT.

FULL-STACK DEVELOPER

Endava Colombia · Dec 2019 - Jul 2021
I built plugins and themes for WordPress. I also worked on a
project where we used HTML 5, CSS 3 (SASS), React JS,
Gastby, GraphQL, PHP, MySQL and GIT.

FULL-STACK DEVELOPER

I2B Technologies · Dec 2015 - Nov 2019
We built online stores with WordPress and VTEX. I was
responsible for developing new features using HTML 5, CSS3,
PHP, vanilla JS, jQuery, React, MySQL and GIT.

WORDPRESS DEVELOPER

Sigma Studios · Sep 2015 - Nov 2015
Custom themes for WordPress. For building themes I used
HTML 5, CSS 3, JavaScript (jQuery), PHP and GIT.

PHP DEVELOPER

Sigma Movil · Mar 2015 - Aug 2015
Email marketing system from scratch. It was built with PHP
(Phalcon PHP framework), MySQL databases and GIT.

WEBMASTER

Gobernación de Córdoba · Jan 2012 - Nov 2014
Development of the institutional web portal using Joomla,
PHP and MySQL. Daily content update: news, circulars, etc.
